

PROPOSAL FOR PPE

SLV

CRITICAL SUPPLY IN CRITICAL TIMES

3 August, 2020

Subject: Proposal for Personal Protective Equipment (PPE)

Dear Sir or Madam,

At SLV, our mission is to increase access to trustworthy PPE products at fair prices. Our platform has screened hundreds of high-quality PPE manufacturers to rigorously qualify them across three key areas:

- **Company:** Operational track record and ISO practices
- **Product:** Quality and certifications
- **Value:** Great quality-to-price ratio

The companies we partner with on our platform are leading manufacturers with demonstrable track records and a long-term commitment to the PPE space. We also secure official distribution agreements with our manufacturing partners. This ensures we have a strong relationship with the manufacturer directly, vet product regulatory compliance from inception, and importantly, remove the risk of material time delay from the ever-increasing number of new and often unproven players, not to mention bad actors.

Our leadership team includes serial technology entrepreneurs and former executives with experience in e-commerce, logistics, commodities trading, and international trade at JD.com, Goldman Sachs, Barclays Capital, and the US Government Foreign Commercial Service.

Our product portfolio has the full range of certified surgical and non-surgical masks, gloves, and related PPE products including but not limited to:

- N95 NIOSH Respirators – 10 million units / week
- N95 Non-NIOSH Respirators – 10 million units / week
- FFP2 Respirators – 10 million units / week
- KF94 Respirators – 5 million units / week
- Isolation Suits/Gowns/Coveralls – 1 million units / week
- Nitrile / Vinyl Gloves – 10 million boxes / week
- COVID-19 Test Kits – 6 million / week

For further product details, global sales inquiries or other product needs, please contact SLV:

Our broader Product List is included below and comprises only products from pre-vetted partner suppliers. Our suppliers are also continually expanding, as we are building a tech-enabled PPE marketplace that dynamically matches high-quality supply with credible specific demand. Please feel free to inquire as to the availability of other products not listed herein.

Finally, we are committed to allying with key partners to co-create a more equitable, transparent and efficient global marketplace within the PPE ecosystem. Please feel free to reach out to us if you or your organization would like to explore how we might collaborate in innovative, impactful ways.

Stay safe,

Team SLV

S. No.	Product	Key Certifications	Details	Production, Shipping, Payment Terms	Size (as applicable)
[1] RESPIRATORS & MASKS					
1.1	KF94 non-NIOSH Respirator	FDA, CE	<ul style="list-style-type: none"> • Standard: KMOEL-2017-64 First Class Criteria • Specs: Fold type, 4-layer, non-woven • PFE: 94+% • Civil grade 	<ul style="list-style-type: none"> • 5,000,000 / week • First delivery: 2 weeks • Follow-on delivery: weekly release 	Adult and China sizes available
